

# Moovmango Company & Service Overview

Moving People. Delivering Possibilities.

## About Moovmango

For over 10 years, Moovmango has been at the forefront of technology and innovation, successfully delivering and managing a variety of tech projects across multiple industries.

We specialize in sourcing high-potential projects where investors can partner with us to generate strong returns. You invest, we execute — and together, we make money.

In addition to our deep tech experience, Moovmango offers a unified ecosystem of rideshare, standard food delivery, and obotic food delivery services designed to meet the evolving needs of modern communities.

Our mission is to create accessible, innovative, and community-focused transportation and technology solutions for everyone, everywhere.

## Our Services

### Rideshare

A smarter, safer, and more driver-friendly alternative to traditional ride-hailing apps.

Key Features:

- Fair, transparent pricing for riders
- Higher earnings and support for drivers
- Real-time tracking and safety tools
- Seamless mobile app experience

Live & Upcoming Markets:

- Nepal – Beta complete
- Singapore – Beta complete
- ? Australia – Launching soon
- ? USA – Launching soon

### Standard Food Delivery

Our food delivery network connects local restaurants with customers through fast, reliable courier services.

Benefits:

- Affordable delivery fees
- Flexible delivery options
- Support for local food businesses
- Clean and simple app ordering

## Robotic Food Delivery

We're introducing autonomous robotic delivery units in high-density and controlled environments such as campuses, tech parks, and city centers.

Advantages:

- Contactless, eco-friendly delivery
- AI-powered navigation
- Lower operational costs
- Scalable for global urban markets

## Consulting & Tech Services

Moovmango also partners with businesses to drive growth and innovation through:

- Business Consulting: Strategic planning, operational improvements, and market analysis
- Business Travel Consulting: Optimizing corporate travel programs and solutions
- Food Technology: Advancing food delivery tech and supply chain innovation
- Digital Transformation: Helping companies modernize processes, systems, and customer experiences

## Global Vision

With over a decade of tech project experience, we've built a strong foundation to launch and scale services worldwide. We've successfully completed projects in Nepal and Singapore and are expanding into major markets like Australia and the USA.

Our business model is designed to adapt quickly to new markets while delivering high returns for our investors and value for our customers.

## Why Choose Moovmango?

- Multi-service platform: Rides, meals, consulting, and tech — all under one roof
- Proven track record: 10+ years delivering tech projects with strong returns
- User-centric tech: intuitive design, real-time updates, and 24/7 support
- Future-ready: Robotic delivery, sustainability, and digital innovation built in

## What's Next?

- ? Expanding rideshare and delivery to new global cities
- ? Launching standard and robotic food delivery in select urban areas
- ? Growing consulting and tech services globally
- ? Rolling out app updates for a seamless user experience
- ? Partnering with local restaurants, drivers, businesses, and governments

## Investors Welcome

Moovmango offers investors the chance to participate in high-growth tech and mobility projects. We source the opportunities, you invest — we execute and generate returns.
